Recommendation Letter

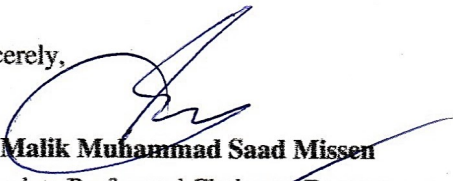

I am writing this letter in recommendation of Mr. Hammad Riaz, and I can attest to his remarkable intelligence, dedication, and passion for academia and research. I taught him during his BS Software Engineering program (2021–2025), where he took three courses with me: Software Development, Software Testing & Quality Assurance, and Software Maintenance & DevOps. I am also pleased to state that I supervised him in his final year project.

He is an exceptional student who has consistently demonstrated outstanding academic performance and an insatiable curiosity for Software Engineering and Computer Vision. His keen interest in the field is exemplified by his strong understanding of Machine Learning and Deep Learning concepts, which he has applied effectively in various projects.

His final year project, **"Intelli-Write: An AI-Powered Platform for Handwriting Analysis & AutoGrading,"** was truly a test of his creativity and ability to tackle complex challenges. This project was recognized as the best project in his batch. Moreover, Face Recognition with Enhanced Accuracy and Face Recognition-Based Attendance System are also among the semester projects he has worked on.

In conclusion, I wholeheartedly recommend Mr. Hammad Riaz for further studies or employment in the field of Software Engineering and Computer Vision. His passion, knowledge, and exceptional achievements make him an asset to any institution or organization. If you require any further information, please do not hesitate to contact me.

Sincerely,

Dr. Malik Muhammad Saad Missen
